

Backyards Aluminum Louvered Pergola 3x3x2.8m , Louvered Roof Free Standing Pergolas

Our Product Introduction

Basic Information

- Place of Origin: Guangdong China
- Brand Name: Oasis
- Certification: CE ROHS
- Model Number: V22
- Minimum Order Quantity: 1 set
- Price: USD 871USD ~4000USD or more based on the sizes
- Packaging Details: Cardboard Rigid Carton With Plywood at outside to consolidate
- Delivery Time: 7~12days for the samples ,30 days for the official orders
- Payment Terms: T/T
- Supply Ability: 5000 Square Meter/Square Meters per Month

Product Specification

- Material: Aluminium Alloy 6063-T5
- Colour: Dark Grey /White/Custom Made Colour
- Frame Finishing: Powder Coating
- Feature: Eco-friendly ,Easy Assembly ,Sustainable ,Rodent Proof ,Waterproof ,Renewable Source
- Product Name: Aluminium Louver Blade Pergola
- Application: Garden/Backyard/Supermarket /Mansions/Buildings/Balcony/Swimming Pool/House
- Function: 100%Waterproof /Sunshade
- Type: Heavy Duty Type /Motorized And Adjustable
- Warranty: 1 Year Warranty And Maintenance For The Whole Set ,2 Years Warranty And Maintenance For The Motors
- Guarantee: 10 Years Still Good Quality As For The Aluminium Strong Materials

Product Description

3*3*2.8m Outdoor Aluminium Louvered Pergola For The Backyards

Product Specification			
Product Name	Aluminium louver blade pergola	Product Features	Waterproof outdoor roof system/Drainage system
Materials	Aluminium Alloy-6063T5	Aluminium Louver blade	180*43mm*1.6mm
Aluminium Post	150*150mm *2.5mm	Aluminium Gutter	123*170mm*2.1mm
Angle Adjustable	0~100degrees	Frame Colour	Dark Grey ,White /Custom made
Application	Outdoor ,balcony ,garden ,backyard,mansions ,buildings,courtyard	Warranty	1 year for the whole set ,2 years for the motor
Aluminium Thickness	1.6mm~2.1mm	Frame Finishing	Powder Coating
Size:	400*300*2800mm 400*400*2800mm 4000*5000*2800mm 4000*6000*2800mm 4000*8000*2800mm		
Operation	Either motorized with the remote control or manual with hand crank		
Power component	Dooya Motor ,A-motor(CE ,ROHS ,TUV ,UL,SGS)or gear box & hand cank (manual)		

Features:

- 1.All Aluminium Alloy louver materials for the products
- 2.Patented leading technology all full sealed for the products in the markets ,Patented Products
- 3.Wind-resistant ,Waterproof ,sun shading and heat insulation ,ventilating
- 4.Closed ,half-open,fully-open for the louver blades of the pergolas
- 5.Hidden Led lights:Soft LED lights are hidden into the blades ,not dazzling ,remote control for the lights,perfecting the night .
- 6.Hidden drainage system : Louver blade pergola has good hidden drainage system ,water goes into the the hidden blade gutters in the roof ,flow into the side gutters and the posts ,outlets in the bottom of the posts
- 7.Fully sealed rubber strips built in all sides of the louver blade ,EPDM Raw Materials
- 8.Assembly ways : Independent installation ,Mount the side against the wall ,Splice Installation

Advantages of our products Louver blade pergolas

1.This Design of Louver blade of the pergolas :It is with the best force to hold ,it is very strong,also force bearing is very good ,so the louver blade is with the best quality ,not easy to get broken or transform,with the best safety for a lot of real estate ,home decoration projects and so on ! We use all aluminium alloy 6063T5 Aluminium for the materials of the louver blade ,posts ,gutter ,best result and the best quality for the outdoor real estate ,buildings ,home decoration projects and so on ,with the best safety advantages .

Our products are with the patents from China Intellectual Property Administration ,also with a lot of certifications of honor.Our products are patented ,which means that our products mould belongs to us ,we have the copyrights of the products ,our products are with our own good thoughts of our designers ,the design is very professional ,reasonable ,scientific ,with the best quality !

Side with different products

Achieve An Exclusive Outdoor Experience

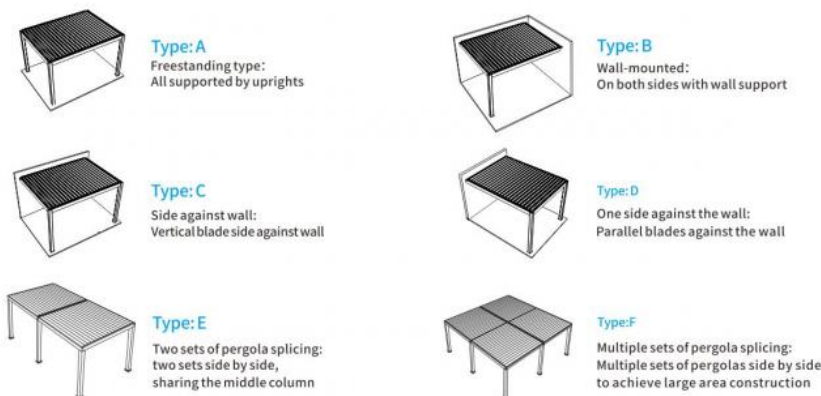

2. Fully Sealed Rubber with the best protection function : The Louver blade Fully Sealed, this technology is all patented, we can make a difference to bring you the best result for the waterproof, best protection against the rain. Furthermore, we use 150x150mm big post 2.5mm and 123x170mm 2.1mm big gutter, thicker materials, it can process a rainfall with more than an intensity of 0.04 to 0.05 l/s/m², drain out the heavy rain quickly. Fully Sealed Design can make sure of the best quality for the protection from the rain, inside the pergolas, with the all aluminium accessories, it is gonna be with the best advantages, it is with the best quality, not able, not easy to get rusted, get corrosive.

3. Installation Methods

Design and fixation mode

4. Technical Parameters

Technical Parameters

Frame material: 6063-T6 aluminum alloy extrusion

Screen size: 220mm wide, effective waterproof design

Louver material and function : 6063T6 UV resistance, snow resistance, pressure resistance

Motor: Domestic motor

General voltage : 220V General (special custom)

Control mode: Remote control

Rotation Angle: 0°C~90°C, press and stop

Dimension : Length direction: L≤6m Width direction ≤6m

Color: Sky Grey

Surface treatment : Powder spray Anodizing

5. Your Best Choice

More Comfortable Outdoor Living Experience

Warm: As warm as you want
Light: As much light as you want
Summer: On a summer's day

Sun-shading, Ventilate, Temperature Regulation

Rain-proof, Wind-proof, Snow-proof

1. Fully sealed design does not leak.
2. The reinforced structure resists strong winds of force Grade 10.
3. Thick steel profiles withstand snow pressure.

Your pleasure Your choice

You can customize your ventilated Eco-room, you can choose different functions integrated into the system as lighting system, sound system, heater, side closure optional (lifting window, glass sliding door, screens, etc.)

Lighting, Heater, Loudspeaker, Lifting Window, Sliding door, Screen

6. Tips of The Products

What aspects should be noted for daily maintenance to ensure the normal operation of the motor system in adverse weather conditions?

Firstly, regular inspection of the motor's protective casing is essential. Ensure there are no cracks or damage that could allow water or debris to enter.

Clean the motor and its surrounding area frequently to remove dirt, dust, and leaves. This helps prevent clogging and overheating.

Check the wiring and connections for any signs of wear, loose connections, or fraying. Tighten and repair as needed.

Lubricate moving parts of the motor as recommended by the manufacturer to reduce friction and ensure smooth operation.

Inspect the seals and gaskets to make sure they are intact and providing a proper waterproof barrier.

Test the motor's functionality regularly, especially before the onset of bad weather seasons.

Monitor for any unusual noises or vibrations during operation, as these could indicate potential problems.

If possible, install a protective cover or shroud over the motor to provide an additional layer of protection from the elements.

Keep an eye on the motor's temperature during operation. Excessive heat could be a sign of a problem.

Finally, follow the manufacturer's guidelines for maintenance intervals and procedures precisely.

We send you the installation file and motors files for the products that you buy from us !

FAQ

Q1. Are you trading company or manufacturer?

A: We are a manufacturer specializing in the field of outdoor electric louver blade pergolas, full cassette awnings, retractable awnings, carports, custom made awnings for 27 years !
